

P J TOWNSEND ASSOCIATES

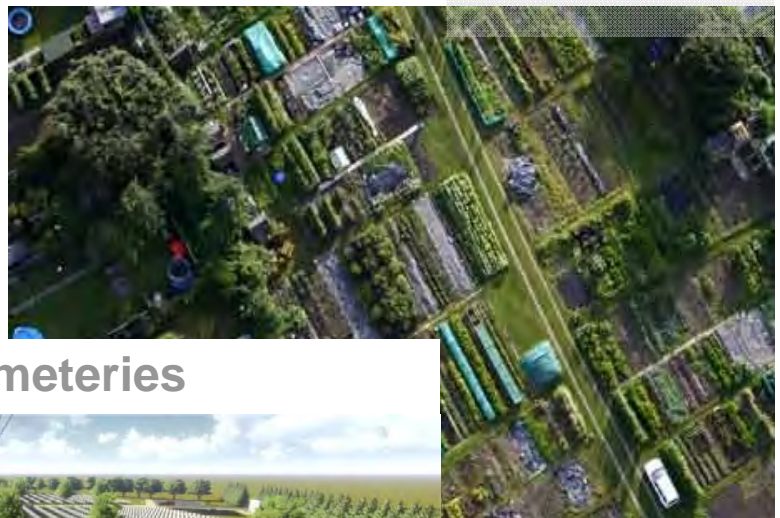

Our Services To Local Authorities

PJTA have been providing services to Local Authorities for many years. We understand the needs of Councils and have tailor made our services to match these needs.

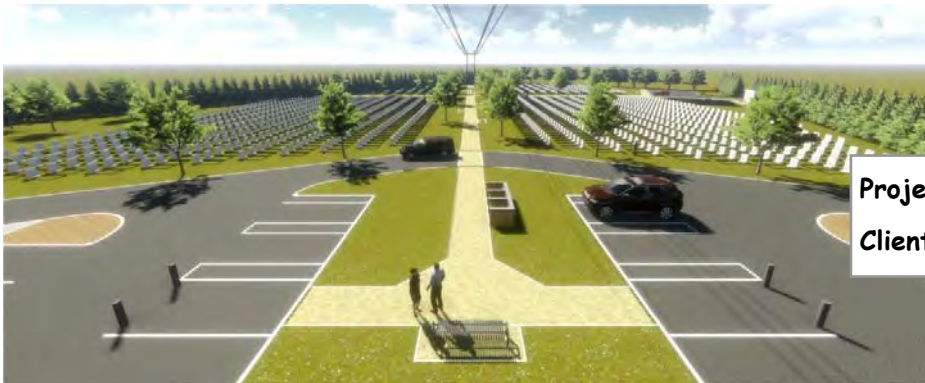

Allotments

With the ever increasing demand for allotments PJTA can survey both existing and new land so as to make the best possible use of the areas involved. We can detail access roads, water supplies and welfare facilities, enabling Councils to fulfill their duty in the provision of allotments.

Burial Grounds & Cemeteries

Project: Cemetery Extension
Client: St Ives Town Council

Unfortunately, cemeteries do not last forever. PJTA are able to survey existing cemeteries to assess their future capacity. We can design new cemeteries to include access roads, footpaths and parking provision. We can provide a complete design package that includes Full Specifications, Bills of Quantities, Forms of Tender and Conditions of Contract. All that is required to demonstrate a Council's best practice and best value.

HOW TO GET IN TOUCH

- You can contact us by phone: 01480 353216
- You can email us on: design@pjta.co.uk
- You can visit our web-site at: www.pjta.co.uk
- You can mail us at:

Bus Shelters

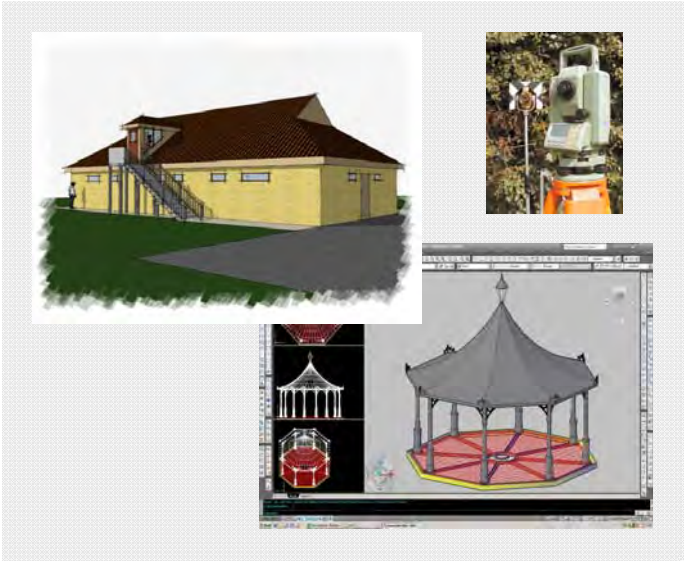

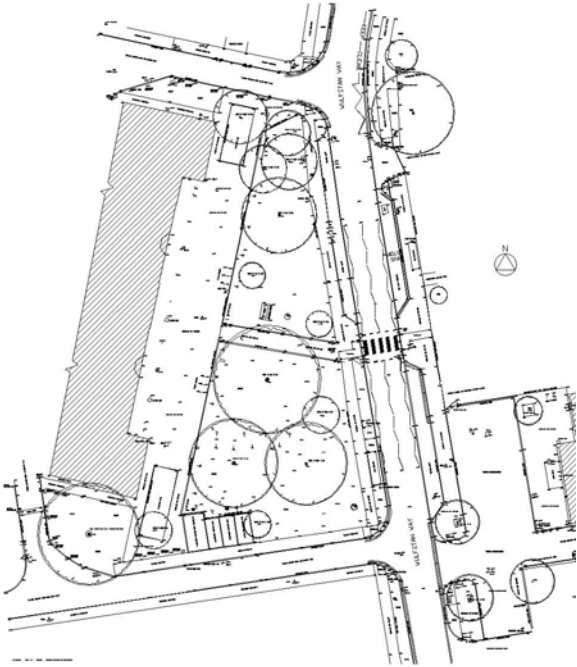

Always a high priority with the public. We can survey the best locations, provide full working drawings and liaise with the Highway Authority and the Bus Companies.

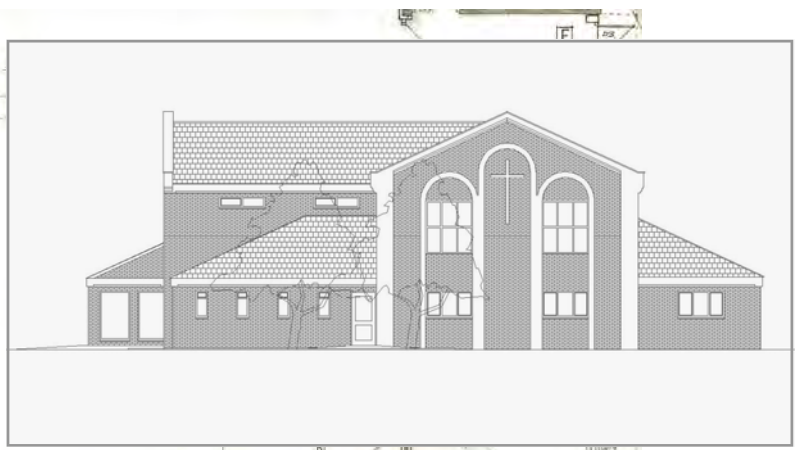

Commons, Parks & Open Spaces

We can survey both new and existing open spaces and can help with footpaths, parking, disabled access, seats and litter bins, play equipment, pavilions, band stands and other public facilities.

We can also produce grass cutting schedules and maintenance contract documents.

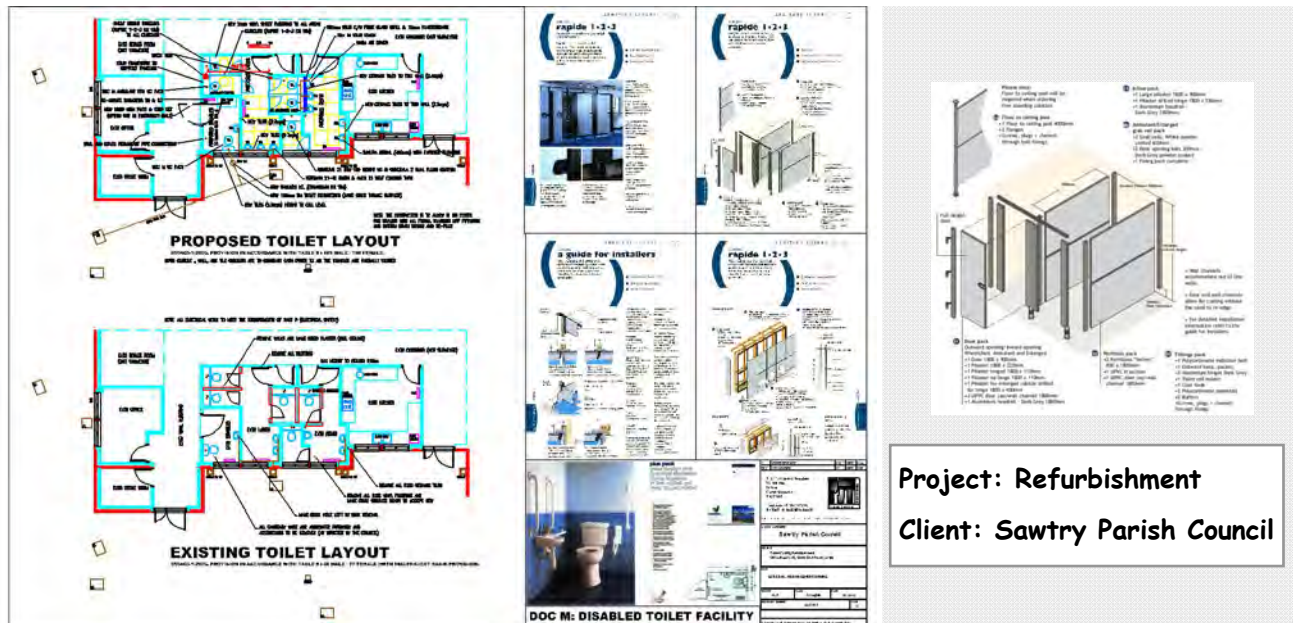

Community Centres and Conference Facilities

All Councils have the power to provide buildings and facilities for offices, public meetings and assemblies, social and recreational activities, entertainment and the arts. We are able to provide property surveys and extensions to existing buildings, refurbishment works and new build designs.

Project: Church & Community Centre
Location: Colchester, Essex

Community Facility Refurbishment

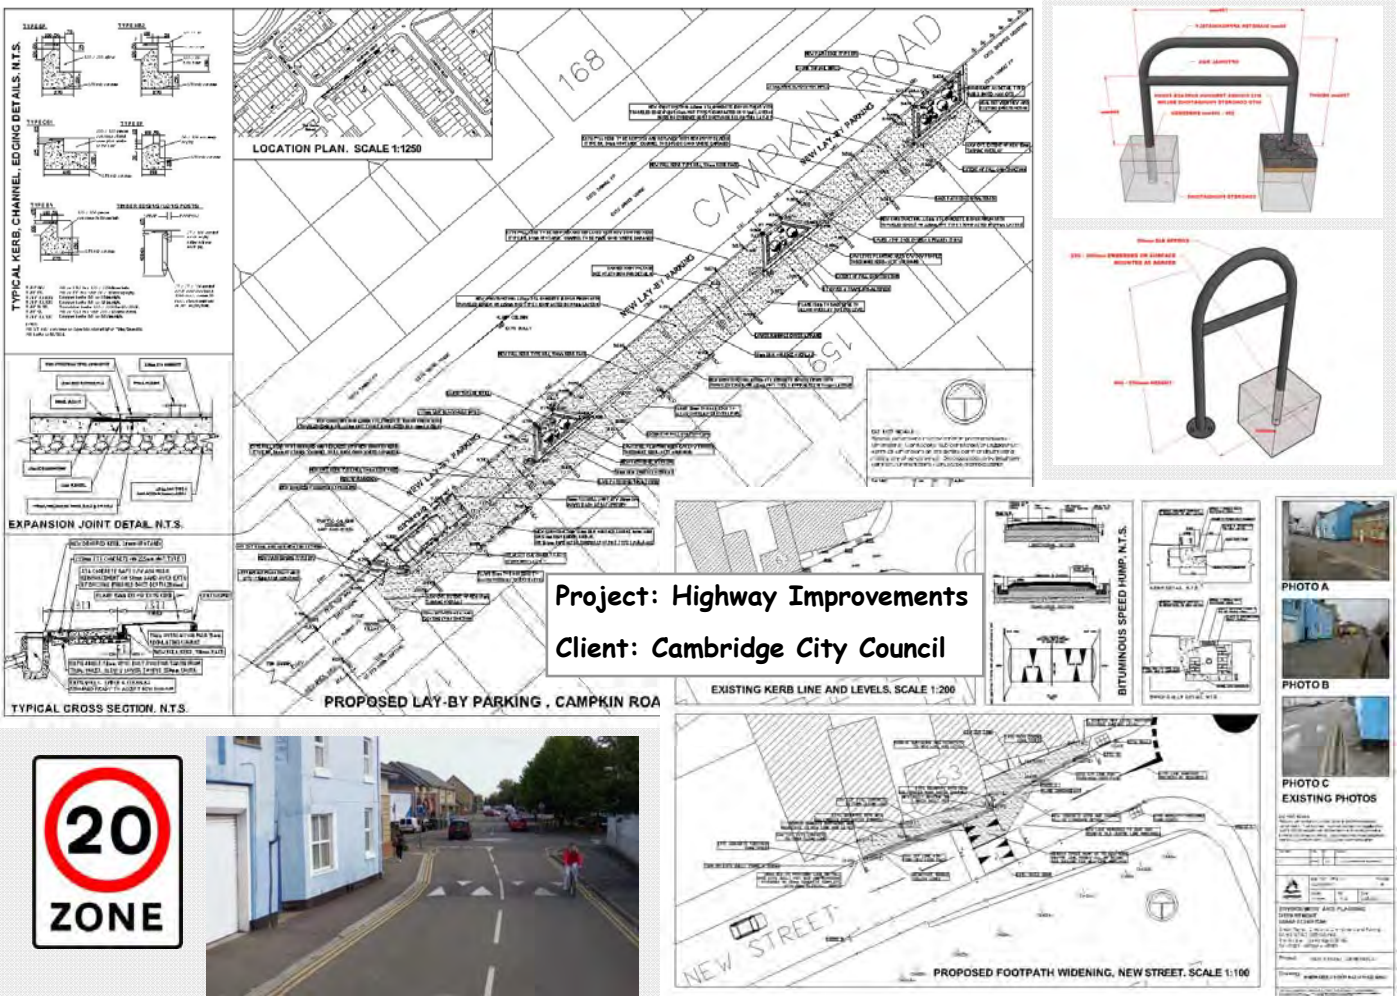

Refurbishment contracts can be very complex. We understand the need for Local Authorities to demonstrate 'Best Value' in every project they undertake. Our services are tailor made to compliment a Council's procurement policy, to clearly demonstrate a fair and open contracts procedure to all. We can provide Full Specifications, Bills of Quantities etc and project manage most sites.

Community Projects: 3D Visualisations

It's true, a picture does say a thousand words. Councils often need to show off their projects, to inform members of the public of their proposals. PJTA can provide 3D visualisations to capture people's imagination. These computer generated images and animations engage the public and enhance any grant/lottery fund bid. Visit www.PJTA.co.uk and take a look at the 3D visualisations.

Highways and Environmental Improvements

PJTA can help with the provision of environmental improvements, parking facilities and lay bys, seating, litter bins and shelters, road traffic signs and speed limits. We can also help with the design of lighting for roads and public places.

If your Council has a project which contains an element of architecture, civil engineering, project management or surveying, then PJTA have the skills and knowledge to conceive, analyse, design and help deliver your project.

Our advice is free, impartial and we are more than happy to discuss your requirements.
